Education

Quezon City University

Quezon City, Philippines

Bachelor of Science in Information Technology (BSIT)

2026

Relevant Coursework: Web Development

Experience

Novaliches District Hospital

Quezon City, Philippines

Trainee - IT Personnel

September 2025 – April 2026

- Developed hospital ticketing system and presented the output to the IT Department to streamline internal technical support process.
- Redesigned and enhanced the hospital's IT Inventory System by creating an improved user interface and adding new functionalities to optimize system usability and efficiency.
- Perform routine preventive maintenance and technical troubleshooting on various hardware devices to enhance equipment performance, durability and operational reliability within the environment.
- Installed, configured, and managed IT and audio-visual equipment to provide efficient and seamless technical support during hospital events and activities.

Academic Project

Ritmo (A Mobile App for Daily Routine Management for Children with Autism) | Capstone Project | 2026

- Contributed to the development of a mobile-based routine management application designed to support children with Autism Spectrum Disorder (ASD) through structured visual schedules, gamified activities, and progress tracking features.
- Designed and implemented user-friendly and sensory-friendly interface components using React Native and TypeScript, ensuring accessibility, simplicity, and ease of navigation for children with Level 2 ASD.
- Developed and integrated interactive mini-games and routine-based activities, including eating game to encourage engagement, independence, and behavioral consistency through gamification.
- Implemented responsive UI improvements, onboarding tutorials, parental control features, media time limits, custom ringtone support, and progress-tracking enhancements to improve usability and accessibility across different mobile devices.
- Created and developed a promotional website for the Ritmo application, including feature sections, FAQ pages, download pages, animations, multilingual content adjustments, and social media integration to raise awareness about Autism Spectrum Disorder (ASD).
- Assisted in creating system documentation, workflow diagrams, and technical process flows, including user authentication, routine scheduling, progress monitoring, and parental control modules for the application architecture.

Skills & Interest

- **Technical:** Web Development (JavaScript, HTML/CSS), Mobile Application Development (React Native, TypeScript), Database Management (MySQL, Supabase), IT Support, Hardware & Software Troubleshooting, and Preventive Maintenance
- **Professional Operations:** Remote & Onsite Technical Support
- **Soft Skills:** Problem-Solving, Adaptability, Client Communication, Time Management.
- **Interests:** Basketball, Mobile and PC gaming.
